Job Specification: Senior Java API Developer

Job Title: Senior Java API Developer

Department: Engineering-Software Development

Reports To: Technical Lead / Development Manager

Location: Chennai (WFO) / Remote

Employment Type: Full-Time

Job Summary

We are seeking a highly skilled **Senior Java API Developer** with 4–5 years of experience to join our dynamic software development team. The ideal candidate will have extensive experience in developing robust, scalable APIs and delivering high-quality solutions. Experience in financial or accounting-related applications is highly desirable.

Key Responsibilities

- Design, develop, and maintain RESTful APIs using Java and related frameworks.
- Collaborate with cross-functional teams to define, design, and deliver new features.
- Optimize APIs for performance, scalability, and security.
- Conduct code reviews and ensure adherence to best practices in coding and design.
- Write unit and integration tests to ensure the quality of deliverables.
- Troubleshoot and resolve issues in the API production environment.
- Document API specifications and maintain up-to-date records of the development process.

Required Qualifications

- Bachelor's degree in Computer Science, Engineering, or a related field.
- 4–5 years of hands-on experience in Java-based API development.
- Strong expertise in Java 8+ and frameworks such as Spring Boot, Hibernate, or JPA.
- Proficient in building and consuming RESTful APIs.
- Solid understanding of microservices architecture.
- Experience with database technologies such as MySQL, PostgreSQL, or MongoDB.
- Familiarity with CI/CD pipelines and tools like Jenkins, Git, or Docker.
- Strong problem-solving skills and attention to detail.

Preferred Qualifications (Optional)

- Experience in developing financial or accounting-related applications.
- Knowledge of cloud platforms like AWS, Azure, or Google Cloud.
- Familiarity with tools such as Swagger for API documentation.
- Exposure to container orchestration tools like Kubernetes.

Competencies and Skills

- Strong analytical and debugging skills.
- Excellent communication and collaboration abilities.
- Ability to work independently and as part of a team.
- Strong organizational and time management skills.

Working Conditions

- Hybrid or remote work options available.
- Flexibility to work in different time zones if needed.
- May require occasional travel for team meetings or client interactions.

12. Compensation and Benefits

- Competitive salary based on experience and market standards.
- Comprehensive health insurance and other employee benefits.
- Opportunities for professional development and growth.

Equal Opportunity Statement

We are an equal opportunity employer and value diversity. All qualified applicants will receive consideration for employment without regard to race, religion, gender, disability, or any other protected characteristic.

Application Process

- Submission: Interested candidates should send their updated resume and cover letter to **[Insert Email Address]**.
- Deadline: Applications will be accepted until **[Insert Deadline]**.
- Interview Process: Selected candidates will undergo a technical interview, coding test, and a final HR round.
